Greater Heights

Municipal Advisory Committee  
on Accessibility Issues

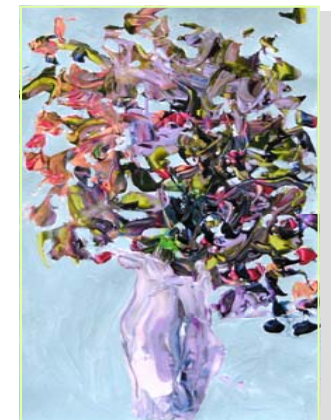

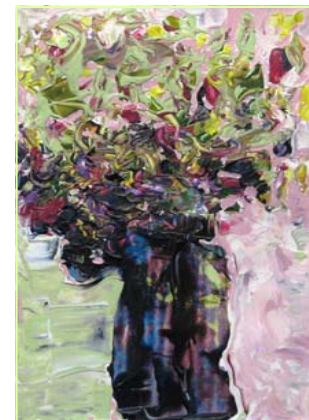

## ABOUT THE COMMITTEE...

The Municipal Advisory Committee on Accessibility Issues (MACAI) is a Joint Committee that advises Maple Ridge & Pitt Meadows Council on civic matters which affect people with disabilities. MACAI strives to remove the social, physical and psychological barriers that prevent people from fully participating in all aspects of community life. The committee's focus is to create equal access in the areas of employment, education, housing, transportation and recreation. The committee includes five local residents, eight representatives from government and community agencies, and two Municipal Councillors - one from Maple Ridge and one from Pitt Meadows.
